## VIWeb Crack For PC

# [Download](#)

### VIWeb Crack+ [3264bit]

It is an Internet Browser with a tiled Window. You can open a current Window into a desired Webpage. A Note with Theme (Field "Theme") and Text (Field "Text") on a selected Text (Webpage) is added to a Database. A Text is shown as a Theme with a Text which is selected. The Theme is a Text with a special Style (bold, italic). The Theme is deformed for a selected Text. Vinext is a specialized Internet Browser/Webcam Viewer with several additional features. (Some of them are not finished, but it's already a good starting point for a new Browser). VIWeb Cracked Version was created at the University of Kaiserslautern, Germany. How to use it: · Click on Internet Browser tab on the Launcher's Window (or Main Menu) · Click on a Website · "Load site into new window" or "Load site to current window" · Use Menu Window/Tile to place all opened Windows tiled Notes and Database: · Select a text on a Webpage and copy it to Clipboard (Menu Edit/Copy). · Press "Save copied Text to a Database" button. · In an "Adding a new Note" Dialog enter a new Theme or choose the earlier entered theme for that Text. · Enter a Comment for that Text if you need. · Press "Save Record" button. · The new Record with a Fields "Date", "Theme", "Comment" and "Text" will be added to a Database VIWeb Free Download Description: It is an Internet Browser with a tiled Window. You can open a current Window into a desired Webpage. A Note with Theme (Field "Theme") and Text (Field "Text") on a selected Text (Webpage) is added to a Database. A Text is shown as a Theme with a Text which is selected. The Theme is a Text with a special Style (bold, italic). The Theme is deformed for a selected Text. Vinew is a specialized Internet Browser/Webcam Viewer with several additional features. (Some of them are not finished, but it's already a good starting point for a new Browser). Vitely is a free Internet Browser with special Features that make a Website easier to use. It is also designed to operate in an easy way. It comes with a

### VIWeb License Code & Keygen

· VIWeb will replace your already existing Search Engines. · You will have on VIWeb a Favorites Menu and a Tiles Menu to display opened Internet Websites in Windows on your Desktop. · When you open a Page for the first time, it will open in a New Window. If you want to keep the opened Page in an New Window, you need to save it to the Database with "Save recorded text to a Database". · There will be a Database with all your Texts and Notes in different Themes. · Each Theme has different "Widgets" to display Texts. Some Widgets will display Audio as well. · You can save any Internet Page to the Database, too. · When you save a Page to the Database, the Browser will not open this Page but put it in a Shadow Document. This makes it is easy to store more Internet sites on your Desktop in one Database. · When you open a Window for the first time, it will be stored in a new Window. If you want to keep the opened Window in an New Window, you need to save it to the Database with "Save recorded text to a Database". · Save Internet Pages with clicking a "Save recorded text to a Database" button. · You can sort all opened Windows by clicking on a Column Name. · You can drag-and-drop Internet Pages and Files to an Open Internet Page. · When you want to open a Internet Page again, you can open the saved Page without opening the Browser. You only need to click on the entry on the Tile Menu of VIWeb. · You can add new columns for a new Theme. · The "Save recorded text to a Database" button will open a new window to add a new record to your Database. · Opening a Window for the first time, you can choose a Theme for the Windows. You need to select a Theme when saving a Window. · If you like to copy a Window from VIWeb to your Clipboard, you need to first click on a Column and then click on a Button next to the Column. · You can create a new Database from the Editor Window. · You can edit the Values for each Theme in the Editor Window. · The History Window has an option to view, copy and edit your Notes and Texts. · Since you may have created different Themes for each Text, you can also change the Theme for each record. · 6a5afdab4c
