This chapter describes how to produce an embedded control area for a microcontroller,. Freeware version. Download the control area: Mega.The present invention relates to a multi-degree of freedom vehicle, such as a rocket vehicle, having a plurality of propulsion units connected to the vehicle to propel the vehicle, wherein a total force is applied to each propulsion unit for propelling the vehicle. One-degree of freedom vehicles, such as cars, have been developed to make it possible to drive a vehicle on a straight line at low speed with a very small size and low weight. However, it is difficult to control the propulsion of such a one-degree of
