This version includes the most radical innovations that open up unprecedented creative possibilities, including the ability to edit with Adobe Photoshop CS5 Extended (Russian) - Description: Adobe Photoshop CS5 Extended (Russian) v7.0.11 - This is a new and expanded version of Adobe Photoshop CS5. This version includes many updates, including new tools for Web design and animation, support for 64-bit Mac OS and Windows systems and many other improvements, including support for multiple displays. Adobe Photoshop CS5 Extended is a

program that is an indispensable application in today's digital photography workflow, and at the same time optimally combines fine-tuning tools and ease of use. Adobe Photoshop CS5 Extended supports all the features of the original Adobe Photoshop CS5 image processing program, as well as exceeding its advanced capabilities. In particular, it allows you to work with 16-bit images on Mac OS and Windows, use new layer styles, provides new drawing capabilities, and provides work with widescreen displays. Extras: - Improved brush management. Change the arrangement of brushes and store them in a convenient order. Use the drag and drop feature to rearrange items, create folders with more brushes and albums, and delete individual items. - Improved interface. Now you have all the tools you need to work with vector graphics in one window. Easily group your tools to get quick access to them. - Enhanced Brush Set. In the new Brush Wizard window, you'll find a collection of interesting highly customizable brush templates.
